

MAKES PUBLIC ROOSEVELT'S LETTER

FORMER PRESIDENT OUTLINES
REASONS FOR HIS SUPPORT.

Reiterates That All the Bosses Are
Against Him—Says He Typifies
Cause of Securing Social and In-
dustrial Justice.

New York, May 10.—The Roosevelt committee to day gave out a letter from the colonel to R. A. Caswell of St. Paul, one of the Roosevelt leaders in Minneapolis. The letter is in answer to an invitation to visit Minneapolis after explaining that this will be impossible Col. Roosevelt says in part:

"Mr. Taft's chances for re-nomination lies solely in securing at Chicago delegates who will misrepresent the will of the people. He can get these delegates, not in the primary states, but in the conventional states, where delegates are chosen under a closed system, and even in these states he can only get them where the state is ruled by a boss.

Bosses Are Opposed.

"After a prolonged experience of me as president, practically all of the big bosses in the Republican party dislike me so heartily that they opposed Mr. Taft's nomination because I favored it. They were afraid that Mr. Taft would give them the same kind of trouble that I had given them. After three years and a half experience of Mr. Taft since he has been elected, these same men have turned around and heartily favor his re-nomination. They were opposed to me four years ago and they are opposed to me now. They were opposed to Mr. Taft four years ago when they had elected him as a president and they heartily support him now.

"The fight is a nation-wide fight of the plain people against the bosses. There is just one candidate whom it is possible to nominate against the bosses and that is myself. Every vote for every other candidate from now on is a vote for Mr. Taft.

"I became a candidate only when I became convinced that no other progressive candidate could by any possibility be nominated against Mr. Taft. The contest has gone so far as to make it now evident that I certainly can be nominated against Mr. Taft and that either I shall be nominated or else a reactionary will be nominated. It is also evident that only every progressive Republican, but every man who believes in decency and honesty in politics, who is against boss rule and for the genuine rule of the people and is for the elimination of special privileges and for efficient endeavor to secure social and industrial justice can achieve his purpose only by supporting my candidacy.

"My personal interest is of no concern one way or the other, but it happens that this time I typify and embody the great cause which can only be furthered by supporting me. Almost everywhere where I have been able to appear personally in this campaign to fight the bosses we have beaten them and ask that Minnesota stand beside Oregon, Illinois, Pennsylvania, Nebraska, Maine, Kansas and Maryland in this fight."

FREIGHT HANDLERS' STRIKE.

Strikers Propose Arbitration Plan to Employers.

Chicago, May 10.—Representatives of the striking freight handlers in Chicago to day proposed an arbitration plan to their employers. They suggested that an arbitration committee of three men, consisting of one representative of the strikers, another of the employers and a third to be named by these two, be selected to settle the dispute.

Pending a settlement, the strikers said they would return to work under the old agreement.

No decision in the matter was reached. Railway managers said that it had not been discussed.

Strikers said that the freight handlers in Milwaukee, St. Paul, Peoria, St. Joseph and Galesburg had requested that they be permitted to go out.

Charges were made by strikers that freight is shipped from Chicago to St. Joseph and rebilled there. "As is done, it is said, because the bill facilities here are inadequate to handle the large outgoing consignments.

ATTACK ON BRYAN.

Washington, May 10.—An attack upon William J. Bryan, stating that "his attitude in this pre-convention campaign can be accounted for only on the hypothesis that he hopes to be again nominated at the Baltimore convention," was given out here to day by the Harmon national headquarters. The statement calls upon the "Democrats of the country to give candor to the real situation."

It declares that a successful Democratic candidate must this year carry northern states, as well as those that Mr. Bryan carried in his last campaign; and says that the Nebraska is opposing Governor Harmon because the latter is strong in the north.

The Harmon statement adds further that Mr. Bryan is "flirting with both the Wilson and Clark booms, it being his evident desire to play one against the other in the hope of precipitating a deadlock at Baltimore, expecting thereby that he will stampede the convention for his own nomination."

CAN EXTERMINATE SEGREGATED VICE

REMEDY GIVES CHICAGO LAW
AND ORDER LEAGUE.

H. E. Moore, of Seattle, Wash., Tells
of Fight Which Resulted in
"Cleaning Up" That City—Vice
Element Feeds on Prosperity.

Chicago, May 10.—H. E. Moore, president of the Welfare League of Seattle, Wash., who led the fight which resulted in the "cleaning up" of that city, to day told the Chicago Law and Order League that this city's segregated vice districts can be exterminated within a year.

Moore told of how the Seattle Welfare League had induced a property owner who had a vacant lot on the edge of the segregated district in Seattle, to bring a suit for injunction against the mayor, the chief of police, members of the city council, owners of property in the segregated district, managers of houses and inmates. The injunction was granted, he said, and later the court order was violated.

"Then," he said, "we went to a judge, and he held the back bond to tell the mayor and prosecuting attorney and chief of police that unless the injunction was obeyed he would issue 500 arrest warrants. And it was obeyed."

Mr. Moore asserted that the argument that a vice district helps business is untrue.

"The vice element feeds on prosperity," he said, "but does not contribute to it. Anyway, the question is not revolving about the 300,000 persons in this country now living on prostitution, but it is revolving about the millions who will be, if we don't do something to stop them."

ALLY LOWERED.

Woman Tells Committee Chief Fault of Meat Inspection.

Washington, May 10.—Mrs. Caroline Bartlett Crane, in support of Representative Nelson's resolution for a congressional investigation of the government meat inspection service, to day told the house committee on expenditures in the department of agriculture that the chief fault of the service was in the personnel of the officers of the department.

Secretary Wilson, Solicitor McCabe and Chief Melvin of the bureau of animal industry were in office when sensational disclosures in the packing industry were made a few years ago, she said and characterized them with not curing the disease and maintaining that the inspection standard has gradually been lowered.

Too much attention has been paid to the interests involved and too little to the health of the people, she said.

The endorsement of the inspection regulations by a commission of scientists was not accepted at its face value by the witness, who read a letter from Secretary Wilson addressed to her to show that the members of the commission were selected after they had passed upon and approved the regulations.

The committee adjourned until tomorrow.

PROVIDES SPIRITED PASSAGE.

Washington, May 10.—Senator John Sharp Williams provided a spirited passage in today's desultory tariff discussion in the senate by declaring that the bill revising the iron and steel schedule of the tariff had been pushed ahead of other tariff legislation to protect from criticism the political motives of Chairman Underwood of the house committee of ways and means.

Various senators had interrupted the long argument of Senator Cummins in favor of a reduction of rates in the iron and steel schedule with criticisms of the preference given that measure over other tariff bills.

Members of the finance committee asserted that the wool bill would be reported at the next meeting of the committee and that the sugar bill would be brought out soon thereafter.

WILLIAMS DENIES FORMER TESTIMONY

CONTRADICTS EVIDENCE GIVEN
AGAINST ARCHBOLD.

Chief Witness Repudiates Contents
of Document Signed in Which He
Claimed Judge Was "Silent
Party" He Named in Deal.

Washington, May 10.—Edward J. Williams of Scranton, Pa., chief witness so far against Judge Robert Archbold, of the commerce court, to day flatly denied before the house judiciary committee some of the testimony he had given against the judge on Wednesday.

Williams was a partner with Judge Archbold in negotiations for buying a culm bank from the Erie railroad to sell at a profit of \$12,000 to the Lackawanna & Wyoming railway. The judge at that time had the Erie's so-called litigation cases in his court. The committee is investigating to decide if impeachment proceedings should be brought against the judge.

A. S. Worthington, counsel for the accused jurist, undertook the re-direct examination of Williams and called his attention to the copy of an assignment of the culm bank property that he was alleged to have made to W. P. Boland and a "silent party." Previously Williams had admitted having made such an assignment before he procured options on the Erie culm banks, and had explained that the "silent party" was Judge Archbold.

To day, however, upon reading a copy of the assignment again, Williams declared it was not the paper he had signed. He admitted that the signature attached was his, but repudiated its contents.

This admission led Attorney Worthington to ask the witness if he ever drank. He said that he did, and admitted it was "possible he might have signed papers that he could not now recall.

Williams also repudiated the letter introduced in evidence Wednesday, in which he related having told W. P. Boland that if he had discounted one of Judge Archbold's notes a case he had before that jurist which was decided against him, might have resulted differently. The witness admitted having said something like that to Boland, but he denied that the language used in the letter in evidence, signed by him, ever came from his lips.

It was also developed on cross-examination that Judge Archbold asked Judge Williams to lend him paid Williams' fare from Scranton to Washington that the latter might respond to the subpoena from the judiciary committee to appear before it. Williams said he did not have the money and that he had adjourned for the day. Williams was cautioned by Chairman Clayton to talk to no one about the case. He will be recalled tomorrow.

FOUND AT BALL PARK.

Washington, May 10.—Determined to command a quorum during consideration of dud-dry private pension legislation the house today ordered its sergeant-at-arms to raid the American league ball park. The orders were carried out. So was more than a score of congressmen whom the officers found were "rooting" for their favorite team. A flotilla of taxicabs brought the prisoners back to the house, where they were subjected to a "sizing up" by their more dutiful colleagues.

"What's the score? Why didn't you stay to see tomorrow's game?" was demanded of the first batch when they appeared on the floor in custody.

"We were down at the war department attending to our congressional duties," retorted one of the "prisoners," with apparent indignation.

To something fell from his hat as he waved it in protest at his persecutor. It proved to be a "rain check" issued at the park entrance. The trouble started during consideration of a private pension bill when Representative Roddenberry of Georgia, Democrat, offered an amendment providing for segregation of negro civil war veterans and the erection of "Jim Crow" soldiers' homes for their accommodation. It was voted down by the slim gathering in the chamber.

RED CROSS MAKES PROGRESS.

Washington, May 10.—More progress has been made in the first aid work in the United States during the last four years by efforts of the American Red Cross than during all the preceding period, although this country is still behind many others in this work, according to Major Charles Lynch, U. S. A., in charge of the Red Cross first aid department. To day he told the international conference here that the department had instructed about 150,000 people last year. This year the society expects, he said, to establish red cross organizations all over the country. He acknowledged the society's indebtedness to physicians in all localities.

The president and Mrs. Taft entertained the delegates at a brilliant white house garden party late in the afternoon.

Columbus, Ohio, May 10.—In an effort to counter the effects of the campaign tour of Col. William J. Bryan, in Ohio, Governor Judson Harmon has arranged for a tour of a number of the cities of the state, beginning next Monday. All his speeches will be made in the evening.

Los Angeles, Cal., May 10.—Secretary of State Knox, who practically ended the preference primary campaign for President Taft here last night, departed to day after announcing that he intended going to Ohio to assist Mr. Taft in that state. He will go by way of Chicago, and expects to arrive in Ohio Tuesday night.

Members of Committee Battled For
Three Hours Following Report
Which Favored Striking Out Para-
graph 260 of Discipline.

Minneapolis, May 10.—Paragraph 260 of the discipline of the Methodist Episcopal church still is undecided, and the question of whether card playing and kindred amusements are to be left only to the "conscience" of the members of the church, remains a bone of contention in the committee on the state of the church.

For three hours this afternoon members of the committee battled over the question, following the majority report of the sub-committee which favored the striking out of that portion of the discipline.

Immediately after the presentation of the majority report, the minority on the sub-committee presented a report opposing the adoption of the resolution and it was this measure which was before the entire committee when a motion to adjourn until Monday was adopted, following an unsuccessful attempt to obtain a vote upon the question.

At the night session of the general conference, which was given over to the report of the board of education of the church, addresses were made by Charles W. Fairbanks, former vice-president of the United States, and Bishop W. F. Anderson, M. E. Fairbanks in his address, dealt with the effect of the work of the church upon the nation, and paid especial attention to the work of Christian colleges, as an aid to the proper government of the nation. He declared that Christian colleges and the state school did not conflict but that each had its place.

The report of the board of education told of the work being done among needy students, and of the aid given to the different schools of the church.

TAFT OUTLINES
FINAL CAMPAIGN

Chief Executive Will Utilize Much
Time Before Presidential Primaries—
Takes Stand to Revise Patent
Laws.

Washington, May 10.—The complete schedule of President Taft's final campaign tour of Ohio before the presidential primaries there on May 21 was made public here to night.

Political advisers of the president regard his visit to his home state as of the highest importance and Mr. Taft probably never has had a more difficult and exacting program of speech making mapped out for him.

From the time he leaves Washington next Sunday afternoon until he returns on the morning of May 22 the president will be on the go practically every minute. His only real rest will be in Cleveland next Thursday and in Cincinnati the following Sunday and election day, May 21.

As announced to night the president will make 53 speeches, but there is a possibility that this number may be increased if the railroad can work out additional stops.

On every day he speaks, except Saturday, May 18, Mr. Taft will make ten addresses and on that day twelve.

On Thursday he will speak once at a night meeting in Cleveland and his Sunday in Cincinnati will take him only to church and possibly for a motor ride.

Mr. Taft will vote in Cincinnati.

To Revise Patent Law.

President Taft to day took a decided step toward revision of the patent laws which have remained practically unchanged since 1870.

He sent a special message to congress asking for legislation to authorize him to appoint a commission to investigate the patent laws and report what changes were necessary to make them fit modern conditions.

The president referred to the patent laws of other nations and wrote:

"It is worthy of careful consideration whether or not legislation for such needs should be enacted to prevent our patent laws from being made the basis of unjust monopoly extending beyond the legitimate protection to inventors required to promote science and the useful arts or the means of stifling improvement and the progress of the arts."

The president urged that a procedure under the patent laws be simplified and that the burden, of proving the invalidity of a patent be placed upon him who would infringe upon it. In conclusion the president wrote:

"Great care should be taken in any revision not unduly to interfere with vested interests which have been properly created under the existing laws, or to impair the efficiency of a system from which so much benefit has been derived by the country."

Springfield, May 10.—The house and senate had perfunctory gatherings to day of special sessions two and three and under joint resolutions adjourned until next Tuesday morning at 10 and 11:30 o'clock, respectively.

TRADE CONTINUES ON LARGER SCALE

BUSINESS ACTIVITY STILL FA-
VORABLE.

Large Advance Business Booked by
Jobbers in Some Lines—Best Re-
ports Come From the Southwest.

New York, May 10.—R. G. Dun & Co.'s Weekly Review of Trade to-morrow will say:

The movement of trade continues on a larger scale than last year and very recent statistics by which business activity is measured are still favorable.

Continued heavy buying by the railroads is noted, and prices of steel-making iron and southern foundry iron show increased strength. Open hearth and Bessemer billets are firmer at \$20.50 and \$21, respectively.

Drygoods and manufacturers are inclined to take a more conservative view of the possible trend of values to still higher levels. A large advance business has been booked by jobbers of fall cottons, while wash fabrics and similar goods move slowly into consumption. The position of wool and worsted mills is strong, in so far as business in hand is concerned, and there has been a very general elimination of troublesome labor problems in mill centers. Footwear shows improvement and all kinds of leather are strong, but sole is especially stiff.

Hides continue to show the same amount of strength that has characterized them for some time.

Bradsheets' Report.

New York, May 10.—Bradsheets' tomorrow will say:

Trade reports portray the existence of irregular conditions. Relatively best returns come from the southwest, where sunshine has aided most branches of trade and where improvement in the condition of winter wheat has tended to buoy sentiment.

The season has been an unusually quiet one for most retail lines in the east, vacancies of the weather having resulted in a disappointing demand for most lines of wearing apparel. In fact, wholesale dealers are now finding themselves in a position where they are compelled to wait on expansion in retail trade to furnish them with orders and incidentally greater orders are being held up.

Business failures in the United States for the week ending May 9 were 240 against 224 last week, 245 in the like week of 1911; 216 in 1910; 224 in 1909 and 281 in 1908.

San Francisco, May 10.—LaFollette headquarters in this city made public today a letter received by Mrs. L. C. Daniels Thompson of New York, who is in this state in the interests of LaFollette's campaign, from Dr. H. W. Wiley, formerly of the pure food board. The letter, written May 2, was in reply to a request for information as to Col. Roosevelt's connection with the pure food movement and in part is as follows:

"Mr. Roosevelt may have given assistance in the passage of the pure food bill, but not to my knowledge. He never consulted me as far as I know, never mentioned it but once in a message, and then only in a perfunctory way. I am certain he had nothing to do with its preparation.

"I do not know the inside history of the appointment of the Reinson referee board. I have been told that it was begun by direction of President Roosevelt. The appointment of this board

TEACHERS NAMED FOR CITY SCHOOLS

BOARD OF EDUCATION HELD SPECIAL SESSION FRIDAY NIGHT

T. P. Carter in High School Faculty—Mr. Rogerson Objects to Naming Assistant Domestic Science Teacher—Dr. Clappitt Says Eighth Grade Building Will Be Erected This Summer.

A very brief special session of the board of education was held Friday evening for the purpose of appointing the teachers and other employees of the schools for the ensuing year. The roll was called by the clerk at 7:50 o'clock and showed all members present and the clerk read the call, signed by all the members, which called for the appointment of teachers and the fixing of the salaries for the ensuing year. Member Clappitt moved that the clause providing for the fixing of salaries be stricken out as this work would not be done until this fall and the call was changed accordingly.

Member Clappitt, chairman of the teachers and salaries committee, read the list of teachers previously agreed upon by the members of the committee and moved that they be appointed. The motion was seconded by Member Bavington and when the roll was called all voted for the appointment with the exception of Member Rogerson. Mr. Rogerson said that he would vote yes on all the appointments except as to the new teacher of domestic science, Miss Isabi Melick, for the new eighth grade building, who in the list is named as the assistant domestic science and millinery teacher. Her name was not in the original list agreed upon and Mr. Rogerson said that he did not think they needed the new teacher at this time and would like to hear from Mr. Furr about the matter.

In his remarks Mr. Rogerson said that he thought the appointment of Miss Melick was merely a scheme to get Miss Brown out and that in a year it would be found out that what he said was true. He also said that he thought Miss Brown was the best domestic science teacher in the country and they surely could not find a better one in Jacksonville.

Mr. Furr stated that if the new building was erected this year and the seventh grades are moved into it they would need an assistant in both the domestic science and manual training departments, but as to the wisdom of appointing one at this time, he thought the matter rested entirely with the judgment of the members of the board.

Member Clappitt said that the new building would be ready for the opening of the school term this fall and at that time they would need an assistant and he said they deemed it advisable to secure one now as it would be a hard matter to get one this fall.

The clerk announced the result of the vote and the motion to appoint the teachers named on the list was carried.

The list of appointments follows:

DELIGHTS AUDIENCE.

Miss Jeanette Powell Heard in Pleasing Recital Yesterday.

Miss Jeanette Powell, a student of the School of Expression at the Woman's college was heard in a splendid recital Friday afternoon in Music hall. She gave "The Dawn of A Tomorrow," by Frank Hodgson Burnett. The story is a charming one and Miss Powell was quite at home in the selection. She is brilliant in interpreting and impressed the audience with the mastery with which she had on the selection. She is a close student of characters and is always discovering something new to portray. Those present yesterday afternoon were highly entertained and spoke most complimentary of Miss Powell's work.

MAYOR WRITES LETTER.

Invites Illinois Photographers to Hold Next State Meeting Here. Joining in the movement to secure the state meeting next year of the Illinois Photographers' association, Mayor George Davis has written the following invitation to Mr. D. D. Tennyson, of Litchfield, president of the association: Mr. D. D. Tennyson, President Illinois Photographers' Association, Litchfield, Ill.

Dear Sir: I am writing you to extend to the Illinois Photographers' association an invitation to meet in Jacksonville in 1913. Jacksonville is an ideal convention city. It is centrally located with four railroads centering here. These roads are, the Chicago & Alton, Wabash, Chicago, Peoria & St. Louis and Burlington. So you can see that facilities for reaching Jacksonville are second to no city in the state.

In addition to railroad facilities we have three first class hotels. Desirable halls for holding the meetings are plentiful and the Business Men's association will furnish ample for the needs of the association.

Jacksonville also has many points of interest to strangers. We have here the State School for the Deaf and the State School for the Blind. There also is Illinois Woman's college, Illinois college and a fine system of public schools. Entertainments will be arranged at these various institutions for visitors.

Citizens of Jacksonville have always been noted for their hospitality. In behalf of these citizens I extend you a hearty invitation to meet with us next year.

Yours very truly,
Geo. W. Davis, Mayor.

RIOTING IS RESUMED.

Chicago, May 10.--After a quiet day, rioting started in several places on the West Side tonight when newsboys attempted to dispose of Chicago papers printed in offices where pressmen and delivery wagon drivers are on strike. Frank Smith, a newsboy, was beaten severely by a crowd of union sympathizers and his papers were burned. A riot call was turned in and police arrested William Yario and Louis Welberg on charges of assault.

A negro newsboy was beaten at another place and his papers were burned. When the police arrived at his stand his assailants had fled.

Police were called to one corner six times to disperse a crowd which threatened to burn newspapers. After the police left the last time the papers were burned. At the newspaper offices it was said many storekeepers who went out on a sympathetic strike against the order of their international president, J. J. Froel, were seeking their old positions.

From the headquarters of the pressmen's union a pamphlet attacking the strike for his action in cancelling the charter of the local union was issued tonight. It was charged with being the tool of the newspaper publishers.

TESTIFIES IN STEEL PROBE.

New York, May 10.--A. L. Findley, editor of an iron and steel trade paper, gave testimony to day in the hearings of the government suit to dissolve the United States Steel corporation, intended to prove that an advance in steel prices followed the period of concentration in the organization of the corporation in 1901.

The government contends that after the organization in 1898 of the Carnegie Steel company, the National Steel company and other big combinations that later went into the corporation, prices were put up. These concerns, however, soon became engaged in cut-throat competition, which made necessary their combination under a single control. Prices, it is claimed, were thereby maintained.

Mr. Findley's figures showed that as a general rule prices of steel productions in 1898 were low that there was a phenomenal advance in 1899, a reaction in 1900 and a recovery in 1901.

Mrs. Cooper's maiden name was Cora Davis and she is survived by her husband, one daughter, Virginia Lucille Cooper, her mother, five sisters and two brothers. For some time she resided with her sister, Mrs. Towne, in this city, and while here made a host of friends who will learn of her death with sorrow. She was buried in Denver Friday afternoon.

ILLINOIS WINS IN EASY FASHION

VICTOR OVER CARTHAGE COLLEGE IN TRACK MEET, 74 TO 30.

Visitors Show Poor Class and Annex Only One First Place—Berry Sets New Record in Hammer Throw While Buchelt Breaks Pole Vault Record.

Carthage college was outclassed in the dual track meet with Illinois college Friday afternoon, losing by a score of 74 to 30. The visitors succeeded in getting only one first place, Taylor winning the mile run. Carthage also tied for first place in the 220 yard hurdles, for the reason that Buchelt fell down after clearing the last hurdle. The meet was so one-sided that from the spectators viewpoint it was unexciting and the I. C. athletes were not pushed enough to ascertain just what they could really do. There were two records of the college broken, which were interesting locally. Berry, the weight man who came to Illinois college from Beardstown last fall, set a new record for the hammer throw, when he hurled the lead ball a distance of 131 feet 5 3-8 inches, the old record being 110 feet. Buchelt, who won the 100 hurdles, the pole vault, running broad jump and 220 yard hurdles, being the largest individual point winner for Illinois, set a new record in the pole vault, clearing the bar at 11 feet 3 5-8 inches. The former college record was 10 feet 5 1/2 inches. Both Berry and Buchelt look good for making a mark at the state meet. Smith proved that he could "come back" in the mile run, and it is believed if he had been pushed he could have easily clipped off 25 seconds of the time. Through an unfortunate fall Buchelt had to share honors for first place with Snyder in the 220 yard hurdles. Buchelt fell when within fifteen feet of the tape. He was so far in the lead of his opponent, however, that he had time to turn over on his side, get up and cross the line neck to neck with the Carthage runner.

Next Saturday Coach Harmon will take his team to Decatur, where he will meet Millikin in a dual track meet. Millikin showed up well in the track meet with Wesleyan yesterday, losing by a score of 51 to 57. Carthage will meet the track team of Macomb Normal school next Saturday.

The following were yesterday's events and winners:

Shot put—First, Berry, Illinois; second, Prius, Illinois. Distance, 34 ft. 1 1/2 in.

100 yard dash—First, Jaccard, Illinois; second, O'Hara, Carthage. Time, 19 2-5 sec.

MONTGOMERY & DEPPE

Even The Doors Are Different On A New Method Gas Range

It is not enough that these Gas Ranges consume 25 per cent. less gas, bake more evenly and quicker than any other gas range, are more easily cleaned, and non-explosive, but even the doors show an improvement over the old style.

The Doors split in the center. Yes, actually split in the center. When the door is open the upper section moves up; preventing the heat from rushing up into your face, the lower half moves down—forming a strong ledge—yet not projecting out too far and being in the way.

Every woman who has experienced the rush of heat into her face as she opened up the old style door will appreciate this improvement.

These Split Oven Doors are so evenly balanced that they stay anywhere you place them. There are no catching devices, locks, springs, etc., to get out of order as in the ordinary style door.

But the split oven door is only one of the 18 different ways in which the New Method differs from all other Gas Ranges.

We couldn't begin to tell of all the special features of the New Method Ranges in one advertisement, we couldn't in a dozen.

Come in and let us personally show you these special features, let us demonstrate each one in detail, let us show you how this feature saves gas, how this one insures perfect baking, how this one prevents explosions, how this one adds to your convenience, etc.

TRI-CITY MEET AT SPRINGFIELD

Jacksonville High School Will Send Over Fast Team and Contest Promises to Be Close.

With Springfield, Jacksonville and Beardstown, all claiming the Tri-City meet which is to be held in Springfield to day, the contest gives promise of being one of the fastest that has been run in old Sangamon county for some time. Jacksonville won the W. L. H. S. L. meet over Beardstown by only five points, and Springfield won the Corn Belt meet. There is a possibility that Jacksonville and Beardstown will so knife each other in the various events that Springfield will step in and carry off the honors of the day. Alone Springfield would not be able to defeat either Beardstown or Jacksonville.

Cochran Buland feels that victory will come to J. H. S. Cannon looks sure of the pole vault and also in the low hurdles and broad jump. Carter ought to have no trouble in winning the mile run, while Strawn can clip off the 220 in less than 24 seconds and will cover the distance in the 100 and 440 with the best of them. Jacksonville also should score in the hammer throw, discus and shot put. The half mile will probably go to Yetter of Beardstown. The Springfield dopist has been speaking considerable of the relay race from the fact that Springfield won that in the meet at Keokuk, but this event does not figure in the score making.

Both Jacksonville and Beardstown will send over large delegations and a number have signified their intention of going from Waverly where the high school seniors put on "A College Cinderella" last night.

THE FLIGHTING PRINCESS.

Harry Bulger carries with him three dozen American beauties, not a species of "sexes," but three dozen real, robust, healthy American beauties. They represent the decorative feature of "The Flying Princess," in which Mr. Bulger is starring under the management of Mort H. Singer, and in which he will be seen at the Grand Monday next. Just where Manager Singer corralled this bunch of perfect beauties is still a secret, but nevertheless they are with Bulger's company in the great desert and exhibition of the map portion of American playboys.

The house was handsomely decorated for the occasion and the hours of the evening were delightfully spent by the young merry-makers who sought improvement and pleasant hours as well. Games, music, social conversation and all happily occupied the hours which were also diversified with nice refreshments.

The Fine Point club was delightfully entertained Friday afternoon by Mrs. E. J. Andrews at her home on West College avenue.

Miss Stella L. Cole entertained the members of the Freshman class of Illinois college at a 7 o'clock luncheon Friday evening at the Peacock Inn. The occasion in every way was one of much pleasure. Miss Cole is the class officer.

A reception was given Friday evening at the home of Mr. and Mrs. William Lukken, near Orleans, in honor of Rev. and Mrs. Herman Hallberg. A large number of the neighbors and friends residing in the community were present and the hours proved most delightful. Rev. Mr. and Mrs. Hallberg will leave the first of the week for Arlington, Neb., where they will reside.

The many gifts received by the bride and groom were displayed and were greatly admired by the guests. Musical numbers by Miss Mattilda Richardson, Mrs. Charles Bennett, Miss Helen Bennett, Clyde Richardson, and Mr. and Mrs. Hallberg contributed much to the pleasure of the evening and during the hours elegant refreshments were served.

A COMMENDABLE ACT.

A large collie dog was injured the other day on West State street, when a wagon ran over one of its hind legs. The yelping of the injured animal was quite pitiful, but no one seemed to take any notice of it until a lady happened to drive by in a buggy. She inquired of a bystander whose dog it was and being informed lifted the collie into her vehicle and took it to the home of its owner. The act was indeed commendable.

AN INTELLIGENT GOOSE. Rod Marchison of the Friedman Shoeny Shoe company, selling the Goose Brand shoes, arrived in the city Friday with his goose, "Gnat" and the trained fowl attracted considerable attention by its antics. The goose sings, tells fortunes and does many other startling things for a common goose to do. It wears on its back a red blanket advertising the brand of Goose Brand shoes and certainly makes a showing as he walks the streets in company with Mr. Marchison. The goose entertained quite a company Friday afternoon by racing with a number of boys in front of Raugh's shoe store on the south side of the square. Mr. Marchison and "Gnat" expect to be in the city several days.

HAS BRIGHT FUTURE

H. A. Brewer, who has resigned as physical director of the local Y. M. C. A. to accept a similar position with the association at Elgin, is one of the youngest men in association work. His heart and soul is in his calling and his record during five years service speaks well for his future.

It would surprise you to know of the great good that is being done by Chamberlain's Tablets. Darius Dwyer, of Newburg Junction, N. MUST BELIEVE IT.

When Well Known Jacksonville People Tell It So Plainly.

When public endorsement is made by a representative citizen of Jacksonville the proof is positive. You must believe it. Read this testimony. Every sufferer of kidney backache, every man, woman or child with kidney trouble will do well to read the following:

Mrs. Thomas Davis, 830 Beasley avenue, Jacksonville, Ill., says: "I was a sufferer from kidney complaint for many years and my entire system was affected. I had acute pains in my back, felt weak and languid and had but little energy. As I had often heard of Doan's Kidney Pills, I decided to try them and a short time ago I procured a box at Ames' drug store. Since using this remedy, I have had less pain in my back and have felt better in every way. In return for the benefit I have already received, I heartily recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

As "Ed" Howe Sees Life

Every time I see the husband of a noted woman, I remark something that makes me think he doesn't like the job.

If a widower gets along well after his bereavement, he should be ashamed to show it.

It is no disgrace to be poor; but we are all sensitive about it.

Somewhat it always seems disgraceful to see a horse hitched up with a mule.

After a woman has been married three or four years, she begins saying of her husband: "He used to wait on me, but now, half the time he doesn't know I'm on earth."

When a married woman starts in to become stout, her husband usually starts in to shrivel up.

Those of us who are not called upon to drown to prove our gallantry, are very proud of the way the men acted when the "Titanic" was wrecked at sea.

A man who lives by politics can't understand why you don't take more interest in the primaries; and a bishop gives you rather more difficult tasks than you think necessary.

Probably no row is quite so red hot as that which gets two people into the divorce court.

Women have wrongs, as all the world knows; but if you want to know just how ruthless the terrible wrongs really are, ask a man to reel off his list.

MORE SUBSCRIBERS ARE SECURED

Three-fourths of Stock Necessary for
Chautauqua Project Subscribed.

After a day and a half soliciting, three-fourths of the number of stockholders necessary to bring the chautauqua to Jacksonville have been secured. The first meeting of the stockholders will be held at the Business Men's association headquarters on Monday night. Committees will make their final round on Monday and by night it is expected the full number of shares will be taken. The business men have responded heartily to the proposed ten day assembly for Jacksonville and see in it a great thing for the city. The chautauqua will be held at Nichols park and the stockholders will elect the officials and all committees, James H. Shaw being the superintendent, assisted by Mr. Arthur F. Ewert. It is proposed to make the chautauqua first class in every respect, and the management is working with this in view. Mr. Shaw is a chautauqua manager of large experience and comes with fine recommendations of his work elsewhere. The following stockholders were added to the list yesterday morning, Frank Byrns being chairman of the ticket committee: Montgomery & Deppie, W. S. Badger, Frank & Suel, Pacific hotel, W. S. Elmer & Bro., Julius G. Strawn, W. L. Ransdell, A. W. Becker, J. F. Claus, Jacksonville Creamery Co., George W. Davis, Charles R. Knollberg, Emporium.

ADMIRAL POTTER RETIRED.
Washington, May 10.—To say, after a career of more than forty years of faithful and efficient service as an officer of the United States navy, Rear Admiral William P. Potter, who recently has been added to personnel at the navy department, was placed on the retired list on account of having reached the age limit of 62 years. Admiral Potter is a native of New York and was graduated from Annapolis in 1869. He was a member of the naval court of inquiry that investigated the blowing up of the battleship Maine and was advanced five numbers for services in the Spanish war. In the memorable cruise of the United States battleship fleet around the world in 1908 Admiral Potter commanded the Vermont.

J. S. Wooters, 715 South Pine street, Centralia, says for nine years he drove his rural route wagon, but his kidneys became congested, he had dizzy spells while driving, and other symptoms of kidney trouble. After taking three bottles of Foley Kidney Pills he says: "My kidneys are again in good condition and I am once more at my regular work. I have already recommended Foley."

NEW BASEBALL LEAGUE.
Leavenworth, Kan., May 10.—The ranks of organized baseball will receive a new recruit tomorrow, when the Federal Prison league will begin its first championship season. The league comprises three teams, each of which is made up exclusively of inmates of the federal prison here. There is a white team, an Indian team and a negro team. A regulation field has been laid out within the prison enclosure. A grandstand has been built for the accommodation of the prison officials, guards and their families. On the opposite side of the field are bleachers for the convict fans. The three teams have been practicing daily for several weeks and the managers are reported to be optimistic over the outlook for a close pennant race. A good attendance is assured for the early part of the season, but force of circumstances may cause it to diminish later. All prisoners have been given season tickets, entitling them to attend the games during good behavior.

Keep the Most Careful Attention as
Gives as Good Soil.

Let you ever see a rosebush which—
blossoms and has a healthy environment
of soil, air, water and atmosphere,
which never to achieve a healthy
growth.

A lot of manure will not help a plant
that has a weaker nature than its heart
can stand. Destroy the cause before you
can remove the effect.

You cannot cure bandworm and bald-
ness by rubbing on hair lotions, and
nothing in medicine, etc.

You must look to the cause of the
trouble. It is a germ at the roots of
your hair which causes it to fall out.
Sawyer's Herpicide destroys the germ,
and healthy hair is the sure result.

THE LATE LIEUT. CRAWFORD.
Lieut. Jas. P. Crawford of the
129th Regiment, Ill. Vol., who died
the past week at Bluffs, belonged to
a family, some members of whom
were well known here. If we are
not mistaken, Mr. Crawford lived
here awhile himself.

But had as it may, Mr. Crawford
was a brother of the Rev. Len P.
Crawford, one of the early graduates
of Illinois college and later of
Pasadena, Calif.

Another brother was Newton
Crawford, now of Morganville, Kan.,
who was a student of Illinois college
about 1860.

The Crawford were a stalwart,
reliable family, built like Prof. Tur-
ner's, on the large.

Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is churlish to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. Full correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

NOTES FROM THE
LABOR WORLD.

Journeymen baltors recently formed
a union at Phoenix, Ariz.

The new Zealand cities of Well-
ington and Christ Church have
elected labor mayors.

On June 3, at Boston, Mass., the
Brotherhood of Railway Clerks will
hold its annual convention.
The International Transport
Workers' Federation has now a
membership exceeding 250,000
men.

All the men who are working on
ranches and in orchards in the vi-
cinity of Fresno, Cal., are being or-
ganized.

The first protest against convict
labor was made by a convention of
mechanics which was held in Utica,
N. Y., in 1834.

During the year 1911 the Boot
and Shoe Workers' International
Union paid \$90,000 for sick, dis-
abled and death claims.

A strike is on at Birkenhead,
England, to enforce a demand for
a raise in wages of the engineers,
about 2,000 men being affected.

At a meeting of the Aberdeen
(Scotland) joiners, it was decided
to demand that the wages be in-
creased from 16 cents an hour to
18 cents.

The Plumbers' union of St. Paul,
Minn., obtained an agreement from
the master plumbers whereby the
Saturday half-holiday will shortly
be inaugurated.

The latest of workmen to orga-
nize are the London (England) bar-
men. In the busiest public houses
these men work as many as 105
or even more hours every week.

The Socialist party in Hawaii de-
mands higher wages, white labor
employed and shorter hours. Wages
range from \$18 to \$25 a month
for the plantation laborer and far
less for women and children.

Four thousand of the five thous-
and men employed in railway con-
struction camps along the Canadian
Northern railway, between Hope
and Kamloops, struck recently to
obtain higher pay and shorter
working hours.

The pattern makers employed by
the job shops of Portland, Ore., are
on strike for the eight-hour day.
The strike is part of the plan to
establish the eight-hour day in the
metal trades along the Pacific coast.

The general secretary of the
United Textile Workers of America
gives out the statement that 25,000
textile workers have recently receiv-
ing an advance of 10 per cent. in their
wages. This advance was obtained
without strike.

The Photo Engravers' Interna-
tional Union during 1911 issued six
charters to new subordinates; there
was a gain of 277 members and
there were four strikes, one of which
was won and three are pending.
The cost of strikes was \$24,463.

An agreement has been reached
between the International Brother-
hood of Blacksmiths and the
Western Federation of Miners
whereby there shall be an inter-
change of working cards between
the two organizations without ad-
ditional expense to the members.

BOY THROWN FROM WHEEL.
Russell Hall, son of Mr. and Mrs.
James Hall, received severe bruises
Friday when thrown from his bi-
cycle. He was riding on South
Church street near the College street
crossing, when the fork of the wheel
broke and the boy was thrown head-
long over the handle bars. He was
scratched considerably about the face
and his body was badly bruised. Dr.
Allen M. King was called and took
the boy to his office, where the in-
juries were dressed.

IN JUSTICE COURTS.
The hearing of the case of the City
vs. Charles A. Taylor and E. Green
on the charge of selling goods with-
out a license has been continued un-
til Friday, May 17, at 2 p. m.

John Sallee was fined \$3 and costs
Friday in Squire Dyer's court on the
charge of fast driving. Sallee was
arrested Thursday night on com-
plaint of John Vasconcellos, manager
of Cherry's livery.

FUNERAL NOTICE.
The funeral of Charles Sappington
will be held at 2:20 o'clock Sunday
afternoon from the residence, 841
South Clay avenue, instead of at the
church, in charge of Rev. F. A. Mc-
Carthy, pastor of Centenary M. E.
church. Interment will be in Jack-
sonville cemetery.

PROBATE COURT.
Election to organize village of
South Jacksonville, held June 30,
1911. Ordered that ballots be burn-
ed in presence of Perry White and
John E. Hall. Election first village
officers in same village Aug. 1, 1911,
and election held Nov. 7, 1911;
same order as above.

ABHIMING RELEASED.
Muscatine, Ia., May 10.—"Dutch"
Abhiming, third baseman and last
year's champion base stealer of the
Central association, was released by
Manager Coleman of the local team
today.

WHITE EASY VICTOR.
Los Angeles, Calif., May 10.—Jack
White, the Chicago feather-weight,
was an easy victor today over
Frankie Conley of Kenosha, Wis., at
the Vernon arena. After the first
round, which was fairly even, White
started battering Conley with rights
and lefts to the body and face, never
ceasing until the end of the twelfth
round, when Conley's manager threw
up the sponge. He announced that
Conley had broken his wrist in the
sixth round.

The Truth

Of the matter is that you simply
cannot afford to be without a Hot
Water Heater. It is convenient at
all times, but especially so in the
heat of the summer when you dread
to build a hot fire in order to get hot
water. Remember that we carry a
full line of Hot Water Heaters, Gas
Fixtures, Heating Irons, etc.

Grain Letter.

Chicago, May 10.—Wheat—Tempting profits led to much realizing. A demand from shorts furnished the best support. The short interest is greatly reduced. The big advance causes investors to hesitate although their belief is still in the bull side of the market. The soft winter wheat belt presents a disastrous condition. The feature which encourages the belief in much higher prices is the persistence of greatly reduced spring wheat acreage. We hold strongly to the belief that July and September wheat have an excellent investment if bought conservatively on the decline. Temporarily caution should be exercised and handsome profits in long wheat be accepted.

Corn—Corn shared somewhat in the early strength of wheat. Buying powers, however, is somewhat limited. Pit conditions in May delivery cause sharp rallies, but investment buying in July and later months is poor. Successful local bulls are making desperate efforts to infuse their enthusiasm, but cannot succeed. The recent country sales to arrive for forward shipment have been quite liberal. The pit offers the only satisfactory market to the local cash buyers. The buying is purely speculative. Practically all news confirms the prospect of a big increase in acreage. With fine weather, corn area will be enormous. The sentimental effect of a large area will be decidedly bearish. With farm work completed, corn supplies at terminals will be heavy, at least temporarily. July delivery will have to bear the brunt of movement. Fine pastures and high price curtail consumption. Cash demand is slack. We reluctantly offer our opinion as to July corn. It is now and on any rallies of importance.

Oats—Many losses accepted profits with idea of re-instituting their lines. Under pressure of this selling and local raiding the high price of yesterday were partially lost. All news tends to confirm the short acreage theory and the late start is fact beyond question. The growing crop will be injured by hot weather, when it is most needed. Oats will be subjected to unfavorable weather, at its maturing time and the demand for cured feed will be enormous for a time. Should expect very bullish influence from this cause. Dry weather is complained of in the extreme southwest. Texas oats are said to be badly in need of rain. There is every reason to believe that July oats will be strictly an old crop option and as such will have to come up to prevailing cash levels. New oats with old crop excluded will be in sharp demand. We look for high priced oats this summer. The situation justifies purchases of July and September oats with every reasonable expectation of good profits.

FACTORY GIRL GIVES UP

Too Sick to Work—Doctor Advised Operation. Restored to Health by Lydia E. Pinkham's Compound.

Foughkeepsie, N. Y.—"I run a sewing machine in a large factory and got all run down. I had to give up work for I could not stand the pains in my back. The doctor said I needed an operation for female trouble but Lydia E. Pinkham's Vegetable Compound helped me more than the doctors did. I hope that every one who is suffering will get the Compound. My pains, nervousness and backache are gone and I have gained five pounds. I owe my thanks to your medicine for it is the working girls friend, and all women who suffer should write to you for special advice."—Miss TULLIE FLENGIZ, 3 Jay St., Foughkeepsie, N. Y.

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, is it not reasonable to believe that it is an article of great merit?

We challenge anyone to show any other one remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

MEAT INSPECTION SERVICE.

Chief of Bureau of Animal Industry Says There's Nothing to Fear From Thorough Investigation.

Supt. Isaac Powers of the Jacksonville Packing Co., and Dr. Clarence, who represents the government inspection service at the Packing Co. plant, are naturally very interested in the meat inspection investigation, which is now attracting attention.

In a circular letter just issued Dr. A. D. Melvin, chief of the bureau of animal industry at Washington, who is at the head of the government meat-inspection service, states that the bureau has nothing to fear from a fair and thorough investigation of the inspection.

"The resolution introduced in congress by Representative Nelson," says Dr. Melvin, "contains a number of false assumptions based on ignorance or misrepresentation of the facts. It appears that the charges are inspired by professional agitators, aided by disgruntled and discarded ex-employees, who have been dismissed from the service. Most of these charges were made two and a half years ago by Mrs. Caroline Bartlett Crane before the American Public Health association, and she was unable to sustain them to the satisfaction of the executive committee of that association. The charges are also partly based on statements made by Dr. Albert Leffingwell in a book on 'American Meat,' published by him in England in 1910, a book abounding in misrepresentations and distorted quotations from official publications.

"Aside from the attack on the integrity of the officials administering the service, the main question at issue is simply whether the inspection should be based on principles determined by eminent scientists the world over who have thoroughly studied the subject, or on the sentimental notions of luddites. In 1907 the regulations were carefully gone over by a commission of distinguished scientific experts outside of the department of agriculture, who reported that, 'if there be any general error in the regulations this is in favor of the public rather than in favor of the butchers and packers.' The present regulations conform to the views of that commission except that they are even more strict in some respects than the commission thought necessary.

"Perhaps the most striking evidence that the meat inspection has not deteriorated is the fact that condemnations under the new law have been more than 50 per cent greater than under the old law. It is evident from the statements so far made by Mrs. Crane before the committee, that she does not understand many things about the inspection system and the regulations, and anything that she does not understand she suspects of being crooked. She has gone out of her way to place a sinister construction upon perfectly innocent things. So far she has advanced nothing that can not be made perfectly plain by the bureau when the time comes to present its side of the case.

"The so-called secret instructions to bureau employees were issued as a confidential publication only during 1907 and 1908. For three years and a half these announcements have been furnished not only to the packers, but to state officials, stockmen and the press. The object of issuing confidential instructions during the period that these announcements were guarded as confidential was not to nullify the law and regulations in the interests of the packers, but rather to keep the packers from knowing of the steps that were being taken to maintain surveillance over their operations."

METHODIST GENERAL CONFERENCE—MANY VISITORS—CITY INTERESTED.

By Rev. J. A. Miller.

The influence of the general conference is felt in the thought and life of the city of Minneapolis. The daily press give full notice of the men and measures of the general conference. The lectures and anniversaries are well attended by the citizens. On the street and in the homes of the people the question discussed in the sessions of this great conference are themes of conversation.

Bishop Quayle.
On the board of Methodist bishops is a man who stands alone in the striking qualities of genius. The church has no other in its ministry like him and never has had among its prominent ministers. It is unwise to attempt to describe his genius. One can only appreciate the man by hearing him. In his lecture Wednesday evening at the auditorium entitled "Napoleon Bonaparte, Democrat," Bishop Quayle shone in his native splendor. It was a vast crowd and a mighty deliverance. For an hour and a half the life and spirit of the great Corsican warrior was delineated in terms not soon to be forgotten. Napoleon as a representative of humanity in its mighty protest against artificial and autocratic rule and as the champion of the freedom and right of the individual and of the great mass of individuals was the burden of the lecture. It abounded in striking, unique and forceful utterances of vital social truths.

The bishop's style of delivery seems to accord with the method and diction of his treatment of the theme. Many of his vivid pictures and trite sayings will cling to the mind. He can condense language and construct phrases for emphatic expression as few men. His humorous and poetic temperament make him popular on any theme.

Memorials.
That men and women are thinking and interested in the progress of the Methodist church is manifest by the unusually large number of memorials suggesting changes and new methods is abundant evidence. Some of the most interesting and important changes are working their way through the large standing committees and will soon appear before the conference.

Many of these memorials are purely local in character and of course will die in the committees. But there is disposition to give fair and full consideration to all memorials that deal with important matters. At the general conference any layman in the whole church can be heard not only through his representative, but directly in the memorials that he sends to the conference.

The Main Issue.
Indications point to some radical action within a few days on the character of the teachings that shall be sent out under the sanction of the publishing interests of the church. There are strong memorials in that direction with reference to such matters. There is a growing conviction that the work of this conference in that direction will in all probability stand out as the most important legislation or action of the conference.

It would seem from the action of the conference Thursday morning that it will adopt a report on Episcopal supervision that does not advise the election of a colored bishop. Shoes of the passage of the resolution on tobacco passed yesterday can be heard to day. It is likely that an effort will be made to reconsider that action. But it is not likely that the action will be rescinded.

STOLE A RING.
A Springfield paper says that Earl Pitman, aged 12 years, is held at Urbana for the theft of a diamond ring from Mrs. Emma Panhorst of that place. The jewel was a valuable one, but the little scamp is said to have pawned it for \$22. Mrs. Panhorst is a daughter of Mrs. Francis Braun of Caldwell street and sister of Miss Ida Braun at Johnson, Hackett & Guthrie's.

QUICK RELIEF FOR RHEUMATISM
George W. Koons, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast. Sold by L. P. Alcott, druggist."

MANY HORSES DYING.
A well known fact is that many horses have died from the effects of eating corn, and this will be especially true as the warm weather approaches.

BROOK MILLS have solved this problem by manufacturing a CHOP FEED. This feed is made of a mixture that gives far better results than corn.

Persons having horses should try it and note the good results. Call Brook Mills. Both phones 240.

TO OBSERVE MOTHER'S DAY.
The Northminster church will observe Mother's Day, both in the Sunday school and the morning service. At the Brotherhood service in the evening the pastor will speak on the subject, "The Young Man as a Brother. This is the second sermon in the series on the young man. MAN WELL PUNISHED.

Judge Does Not Believe in Woman Paying for Husband's Misdeeds.

Chicago, May 10.—William McMullan was sent to prison for one year and fined \$2,000 by Judge Pettit in the superior court today when he testified that his wife was working and would make restitution for a forgery committed by McMullan.

"So you are one of these fellows who make their wives pay for their misdeeds, are you?" Judge Pettit said with heat.

"Well I'll pay you where you want worry your wife for some time to come."

Thereupon the judge pronounced sentence.

McMullan was charged with forging a \$10 check.

READY FOR KENTUCKY DERBY.
Louisville, Ky., May 10.—The spring meeting of the Louisville Jockey club will be ushered in at Churchill Downs tomorrow afternoon with the Kentucky Derby, which now stands virtually alone as the sole survivor of the great classics of the American turf. It will be the 38th renewal of this rich event, which as usual will be worth \$5,000 to the winner. With Worth, Presumption, Sonoda and others of the best three year old colts that Kentucky can produce among the probable starters. It appears certain that the field will be one of the classiest in the long history of the great event. With a clear day and the going dry it is predicted by horsemen that the 2:05 Meridian scored when he won last spring will be beaten by the winner of the big race tomorrow.

MEETS TODAY.
The Woman's Relief Corps will meet at the G. A. R. hall on West Morgan street Friday afternoon at 2:30.

Mary F. Waller, Pres.
Mary F. Taylor, Press Cor.
